* The high price of chillies in Ganjam during the year is reported to be due to the failure of the crop, and that of garlic to want of sufficient stock with the merchants at the end of the year.

* Includes whole Inam villages.
† The return being quinquennial, the figures for 1883-84 have been shown.
‡ The return being quinquennial, the figures for 1884-85 have been shown.
§ Area returned by village papers (column 6 (*b*) of Form A).

N.B.—(*a*) Bombay Presidency Proper and Sind have been shown separately in this return, as the statistics for Sind have been collected on a principle different from that followed in the case of the Presidency Proper.

(*b*) The difference between the figures in column 2 of this form and those given in column 2, less column 3 of Form A, is due (1) to the net area returned by village papers (Col: 6 (*b*), Form A) having been entered in column 2 against the Punjab in this form, and (2) to the figures for 1883-84 and 1884-85 (instead of those for 1886-87) having been shown against the North-Western Provinces and Oudh respectively.
